

Alfie Harris

FIND OUT

Secretary of the school council

Used to asking children about what they want

Will ask if there's anything I don't understand

Represent the school at other schools on joint council events

Asked kids at my school already about the sort of things I could help with, they talked about needing showers near football pitches and making sure parks are located in the right place... and doors on the changing rooms at Rochdale Baths

STAND UP

Playground pal – I make sure smaller children are ok in the playground

I recognise that everyone is important no matter what their background

My friend has special needs, he has helped me to understand how things look different to different people

I'm different in that I sing and do ballet, I'm proud of who I am and believe everyone should be proud of themselves as well as supporting other people

SPEAK OUT

I'm confident in speaking to different people whatever their age or background

When I don't agree with something I am happy to speak out

If I see something needs doing I will do it or talk to the right person to get it done

For example, even if I am not successful I will still write to Link for Life to explain that children need their dignity and we need doors on cubicles

I'll contact the media to campaign if it's appropriate to do so, here's a

photo of me from an article after I wrote to the Rochdale Observer

GIVE BACK

I'll make sure I get information back to the kids I represent in whatever way I can

I'd be happy to visit schools to talk to kids

I use my performance skills to make sure I can give information in interesting and different ways

Finally: I promise that whatever I do I will give my very best!
